PROJECTS

Massage And Spa Website

– Built a modern and responsive massage and spa website where clients can book for treatments and subscribe for messages.

Seek Jobs Ghana

– Built an online job vacancy website like LinkedIn with HTML, CSS, JS and PHP. It has been one of my projects I like working on anytime I get.

Portfolio Website

– Built a personal portfolio using HTML, CSS and JS to showcase projects and improve front-end skills.

Basic Calculator (JavaScript)

– Developed a simple mini-calculator supporting basic arithmetic operations to practice easy programming logic.

Basic Calculator (C++)

– Developed a command-line calculator supporting basic arithmetic operations to practice programming logic.

Student Record Manager (C++)

– Created a simple console application for storing and displaying student details using functions and arrays.

Bank Registration (C++)

– Created a simple bank registration application to register user, allow them make simple deposit, and also withdraw cash.

WORK EXPERIENCE

Frontend Developer & Web Designer

Champions Dialogue — Active

- Provided modern, dynamic and responsive frontend websites for the company and its clients.
